

***The NZ Federation of Disability Information Centres is proud to present it's annual Training Conference...***

# **RD 2010 NEW ZEALAND**

## **Rural Delivery of Disability Information Services in 2010 and beyond**

### **CALL FOR SPEAKERS**

The Executive Committee of the NZ Federation of Disability Information Centres is seeking expressions of interest from people wishing to present at its National Training Conference "RD 2010 New Zealand". The Conference will be held in Queenstown on the 17th and 18th May 2010.

We are particularly interested in hearing from people able to speak about the challenges of rural service provision and how these can be resolved. Speakers who can provide delegates with good practical advice, and tools they can take away to improve their organisational and personal development, are preferred.

Delegates include people working at service level, management level and governance level and we aim to have a good mix of sessions to cater for their particular needs and interests.

Speakers at our events receive a free registration for the whole two day conference. Due to funding restraints we can't provide fees, accommodation or travel. However this is a great opportunity to both raise your profile as well as assist others to benefit from the work you are doing (and to stop the "reinventing of the wheel" that so many of us in the sector waste so much time doing!)

The Executive Committee reserves the right to decline any topics that it feels are not in keeping with the conference theme. Where speakers submit similar topics the Executive Committee reserves the right to choose one or decline both. However, speakers who are not accepted in a particular year may apply again in the following year.

If you are interested please send us an email with your topic title/s, a 50 word summary and a 50 word bio before Friday 27th November 2009
